

# AHMED YOUSEF

Istanbul | +905013350511 | ahmedalsaid03@gmail.com

## SUMMARY

I have a strong passion for modern technologies and enhancing user experience Focusing in creating visually appealing and interactive interfaces that provide a seamless user journey Equipped with skills in HTML, CSS, and JavaScript , along with growing expertise in frameworks like React, I aim to deliver flexible and innovative solutions that meet diverse project needs .

## EXPERIENCE

12/2024 to Current	<div>Internship</div> <div>NTG Clarity Networks - Istanbul</div> <div>During my internship at NTG Apps, I gained valuable experience in project management. I actively contributed to several real-world projects, including the development of a <b>Gym Management System</b>. My role involved:</div> <div><ul style="list-style-type: none"><li>Implementing dynamic subscription controls, including membership freezing.</li><li>Created features for gym members, including customized nutrition plans.</li><li>Integrating attendance tracking through check-in and check-out functionalities.</li></ul></div> <div>This experience enhanced my understanding of user-centric design, system workflows, and cross-functional collaboration.</div>
08/2023 to 03/2024	<div>Site Engineer</div> <div>Microterm - Istanbul</div> <div><ul style="list-style-type: none"><li>Designing and overseeing thermostat production to ensure precise temperature control in various devices and enhancing product reliability by optimizing components for consistent and efficient temperature regulation</li></ul></div>
07/2022 to 04/2023	<div>Site Engineer</div> <div>DELTA UPS &amp; Voltage Stabilizers - Istanbul</div> <div><ul style="list-style-type: none"><li>Designing and assembling coils to enhance power stability and reduce electrical interference</li><li>Adjusting technical specifications of coils to meet the requirements of various electronic devices</li><li>I also worked at INNOVASIS UPS in the same specialization</li></ul></div>
03/2015 to 01/2016	<div>Supervisor</div> <div>El Araby Factory - Sudan</div> <div><ul style="list-style-type: none"><li>Gained hands-on experience in my first role as a supervisor while studying Communications Engineering</li><li>Developed strong team management and daily operational oversight skills</li><li>Successfully balanced academic commitments with professional responsibilities</li></ul></div>

## SKILLS

- Javascript
  - HTML
  - CSS
  - React.js
- Bootstrap
  - Tailwind
  - Git
  - GitHub

- Axios
- Tanstack Query
- Framer Motion

## CERTIFICATIONS

- CCNA (200-301)
- The Complete JavaScript Course : From Zero to Expert, Udemy | Jonas
- React - The Complete Guide (incl. Next.js, Redux), Udemy | Maximilian Schwarzmüller

## WEBSITES, PORTFOLIOS AND PROFILES

- LinkedIn : <https://www.linkedin.com/in/ahmedalsaid03/>
- GitHub : <https://github.com/ahmedalsaid03>

## EDUCATION

03/2021

**Bachelor's Degree:** Communication Engineering

**Mashreq University** - Sudan

GPA: Second-Class Honors

## PROJECTS

- **Defolio**, In the Defolio project, I applied my knowledge of HTML, CSS, and Bootstrap to design the website, marking the start of my front-end development journey. It was also my first time working with Bootstrap's grid system, which allowed me to structure responsive layouts effectively. This experience helped me understand how to create flexible designs and improve the overall user experience on different devices., HTML, CSS, JavaScript
- **Typing-Speed-Tester**, I developed a typing speed test using Vanilla JavaScript to dynamically calculate typing errors, words per minute (WPM), and characters per minute (CPM) over adjustable time intervals., HTML, CSS, JavaScript
- **The Movie DB**, I implemented routing in React and fetched data from a movies API, allowing me to practice React routing and data fetching. This experience provided a foundation for learning efficient data management and was an introduction to using React Query in future projects. Through this, I gained a deeper understanding of how to build dynamic applications., React
